

NES NCAP[®]

Market leading
encapsulated
seals

www.nes-ips.com

Unique in-house extrusion of fluoropolymer and elastomeric materials enabling optimised encapsulated solutions

- 100% pure, high grade, Western sourced materials
- Portfolio of exotic materials such as FDA, 3A, metal detectable, USP Class VI and EU 1935
- Customised materials and size/geometry
- In-house fluoropolymer and elastomeric extrusion for market leading tolerances
- UK manufactured under Aerospace AS9100 Rev C quality system
- Cost effective alternative to FFKM
- Same day emergency service available for small quantities and high volume by agreement
